OFFICERS, MANAGERS,

AND

MEDICAL STAFF.

PRESIDENT,
EDWARD HOPPER.
919 Clinton Street.

SECRETARY,
ALFRED JONES,
1930 Wallace Street.

TREASURER,
JOSEPH C. TURNPENNY,
813 Spruce Street.

MANAGERS,

EDWARD HOPPER,
JOSEPH JEANES,
DILLWYN PARRISH,
JOSEPH C. TURNPENNY,
HON. WILLIAM S. PEIRCE,
CHARLES ELLIS,

RICHARD K. BETTS,
ALFRED JONES,
RICHARD L. NICHOLSON,
FRANKLIN TAYLOR,
ENOCH LEWIS,
J. SHIPLEY NEWLIN.

ATTENDING SURGEONS.

THOMAS G. MORTON, M.D.
1421 Chestnut Street.

H. EARNEST GOODMAN, M.D.
1427 Chestnut Street.

ATTENDING PHYSICIANS,

S. WEIR MITCHELL, M.D.
1332 Walnut Street,

WHARTON SINKLER, M.D.
348 South 16th Street.

ASSISTANT SURGEONS.

DAVID DAVIDSON, M.D.

C. H. MERKLEIN, M.D.

ASSISTANT PHYSICIANS,

GEORGE S. GERHARD, M.D.

THOMAS BETTS, M.D.

CONSULTANTS,

PROF. S. D. GROSS, M.D.
WILLIAM HUNT, M.D.

GEORGE W. NORRIS, M.D.
D. HAYES AGNEW, M.D.

RESIDENT PHYSICIAN.

J. M. RADEBAUGH, M.D.

ORTHOPÆDIC MECHANIST,

D. W. KOLBE,
15 South 9th St.

MECHANICAL ELECTRICIAN,

OTTO FLEMMING,
13 North 9th St.

MATRON,

ANNA LUKENS.

ADMISSION OF PATIENTS.

All applications for admission to the Hospital, as *house patients*, or for aid in the purchase of necessary mechanical appliances, should be through the *Executive Committee*, and may be made in person on Wednesdays and Saturdays, at 12 o'clock, M., or may be addressed to ALFRED JONES, *Chairman of the Committee*, at the Hospital.

OUT-DOOR CLINICS.

The clinics for out-door patients are arranged as follows for the year 1874:—

On *Mondays, Wednesdays and Fridays*, at 12 o'clock, M., for *Nervous Diseases*. On *Tuesdays, Thursdays and Saturdays*, at the same hour for *Deformities*.

These clinics are open to all regular practitioners, or students of medicine, upon application to the attending medical staff or committee.

Committee on Property.

RICHARD L. NICHOLSON.

RICHARD K. BETTS.

FRANKLIN TAYLOR.

WOMEN VISITORS.

Mrs. JAMES C. BIDDLE, 1326 Spruce St.

Mrs. EDWARD COLES, 256 South 16th St.

Miss BEULAH COATES, 1616 Arch St.

Mrs. ROBERT R. CORSON, 220 South Broad St.

Mrs. M. E. GOODMAN, 1427 Chestnut St.

Mrs. JAMES HOPKINS, 2018 Spruce St.

Miss MARIA HOPPER, 919 Clinton St.

Miss ELLEN HUNT, 1032 Spruce St.

Miss AGNES IRWIN, 1834 Spruce St.

Miss LYDIA JACKSON, 141 North 20th St.

Mrs. ALFRED JONES, 1930 Wallace St.

Mrs. SAMUEL PARRISH, 1032 Spruce St.

Miss HETTY L. PARRISH, 110 South 17th St.

Miss JOSEPHINE M. PEIRCE, 1710 Race St.

Mrs. CHARLES G. SOWER, 1926 Arch St.

Miss MARY E. TURNPENNY, 335 South 12th St.

Mrs. SUSAN D. WHARTON, 336 Spruce St.

REPORT OF THE MANAGERS.

JANUARY 7-1874.

IN October, 1867, this Hospital—the only one of the kind in America—was organized, and in the following December incorporated by an Act of the Court of Common Pleas.

The object of the Corporators was, to open to the Poor an Institution, in which the various deformities and deficiencies of the human body should be treated gratuitously by experienced and skillful surgeons, with all the indispensable modern mechanical appliances supplied by a competent mechanist.

Among these deformities are included Club-foot, Curvatures of the Spine, Wry Neck, Contractions of the Joints, Hip and Spine Disease, all of them requiring constant and long continued treatment which can only be obtained by a large class in the community, at a public institution especially devoted to such cases.

In 1870 the department for Nervous Diseases was added, and continues to be a most valuable service.

Many of the deformities of the lower limbs are, in some way, related to nervous disorders, and many of the latter exact at the same time the use of instrumental aids to locomotion, so that it is convenient in every way to treat these two classes of disease in one and the same institution.

There were other reasons also for making the department a permanent one in our Hospital. A large number of the cases of nervous disease demand very patient treatment by the various forms of electricity, and for the suffering poor there is no adequate provision for such application in any of the out clinics of our general Hospitals.

The palsies of children make up a large share of this class of maladies, and these can only be treated with success by the use of instruments, and by the long continued employment of faradic and galvanic currents directed by trained physicians. Without such means these little ones must grow up more or less helpless burdens upon the State or City. With them, success is in many cases such as to be altogether gratifying.

Our Hospital is the only one in the State of Pennsylvania devoted to the relief of Bodily Deformities and Nervous Diseases; the only

one in which the poor are supplied with all the expensive means which usually the rich alone can command. Sufferers from these diseases, have a peculiar claim upon our active sympathies, being in many cases deprived of all power to support themselves, though still quite able to move about.

The building purchased for the Hospital, with the alterations which have been made, is admirably adapted to the purposes of our Institution. To what extent it shall be enlarged, must depend upon our future pecuniary resources.

If a doubt ever existed in any mind as to the propriety of locating permanently so near the centre of the city, our experience during the past two years should dispel it entirely. The situation has been found an eminently healthful one, and without local annoyances. It receives the refreshing breezes of summer unobstructed and uncontaminated, while its proximity to one of our most delightful public squares offers to those patients who are able to go out, the cooling shade of the country.

In May 1872, it became necessary to double our clinical service to accommodate the largely increased attendance, so that it is now a daily one, Sundays excepted.

By reference to the accompanying Reports of our attending Surgeons and Physicians, it will be seen that 561 distinct cases have been treated during the year.

Of these patients, 124, mostly from distant points in this and other States, have been received into the hospital for longer or shorter periods.

While this number is somewhat less than in 1872, the average daily census of the house has nearly doubled, the graver nature of many of the cases requiring much longer treatment.

It must be evident that it cannot be long before the present building must be enlarged, or the Hospital must fall short in the adequate accomplishment of its benevolent purpose. Without the purchase of more ground an extension might be made that would more than double the capacity of the house, increase its conveniences, provide for a better classification of the patients, and also secure room for a gymnasium—the necessity for which, in the treatment of deformities and paralysis, is being daily felt. Though convinced of the urgent need which exists for an immediate enlargement, the Managers are indisposed to undertake it, until the necessary means are provided.

As will be seen by the Treasurer's Report, the liberal and timely contributions of old friends and new subscribers have been put to immediate use, to meet, as far as possible, the increasing demands upon us for board and apparatus, leaving the treasury again very low.

Since our last Report our benevolent fellow citizen, Isaiah V. Williamson, has conveyed to this Hospital real estate, consisting partly of ground rents, yielding an annual income of six hundred and twenty-four dollars, which generous gifts, with further liberal contributions of five hundred dollars from Mary D. Brown, and the same amount from William Massey, are gratefully acknowledged. The Board has been notified of a bequest, under the Will of our late President, Charles Macalester, of one thousand dollars, which will be paid at the proper time.

We have also to acknowledge the appropriation of the sum of ten thousand dollars made by our Legislature at its last session; of the amount \$5,000 has been received by our Treasurer and properly invested for the uses of the Hospital. The Managers hope that, at no distant day, the *Endowment Fund* may be so far increased as to relieve them from the unpleasant duty of so often appealing to their friends. For the present we are dependant mainly upon contributions collected from month to month.

The Committee of Women appointed by the Managers, have continued to render valuable aid in conducting the Hospital, and the services rendered by them with so much energy and zeal, have entitled them to the grateful appreciation of this Board.

We cannot close this Report without giving some definite expression of the sorrow which was felt by the members of this Board upon the announcement of the death of our much respected and honored President, the late Charles Macalester, who for several years was zealously devoted to the interests of our institution. He was always ready to serve us with his judicious counsel and pecuniary means, and to encourage and animate us with his cheerful and dignified presence.

The Board tender their thanks to the eminent medical men of the attending and consulting staff for their valuable service and advice, as well as for their untiring devotion to the hospital. Also, to Dr. Radebaugh, who has faithfully discharged the arduous duties of Resident Physician for the past year.

The office of Orthopædic Mechanist, is still ably filled by Mr. D.

W. Kolbé, and we are indebted to him for liberal concessions on apparatus in many instances.

The internal administration of the new hospital has been faithfully conducted by Mrs. Lukens, the former matron.

When this hospital commenced its work of mercy, six years ago, in its modest rooms on South Ninth Street, some regarded the undertaking as an experiment; each step forward was taken with caution, and not until experience had clearly shown the usefulness, and even the necessity for such an institution did the friends decide on a permanent location. In this more extended field, which our position now commands, we begin to realize how much there is yet to be done. We appeal to all friends of humanity in this city and elsewhere, for such assistance as will enable us to go forward with our work, until the Orthopædic Hospital and Infirmary for Nervous Diseases shall become, as it must eventually, one of the most useful and deserving charities of our much favored State.

EDWARD HOPPER, *President.*

ALFRED JONES, *Sec'y.*

Annual Report of the Attending Medical Board.

FOR THE YEAR 1873.

GENTLEMEN—

WE have treated during the year, 305 new cases of Deformities, and 256 cases of Nervous Diseases—total, 561.

58 surgical operations were performed, generally for the division of tendons.

A large number of mechanical appliances have been furnished and adjusted to patients requiring artificial support and mechanical treatment.

124 of the more serious cases (57 males and 67 females) have been admitted into the wards of the Hospital, for operation, mechanical and electrical treatment, and for the purpose of having them more directly under the supervision of the medical staff. The Record Books show many cases of unusual interest treated during the year.

561 new cases, and 1040 old, have applied for relief at the daily out-door clinics, making a total of 1601, not including an almost equal number treated by the application of electricity.

We have, as in our last Report, to regret that few cases of hip and spinal disease apply in the very early stages of these diseases, when they are frequently curable without deformity.

Respectfully submitted,

THOMAS G MORTON, M. D., President.

H. E. GOODMAN, Sec'y.

January 1, 1874.

Report of the Attending Surgeons.

The following cases of Deformities were treated in the Hospital during the year 1873 :—

Talipes (club foot.....	Spinal Disease, lat'l curvature..16
“ Varus.....15	“ cervical “ 1

Carbon.....	2	Total,	305
Luzerne.....	2		

The Surgeons in charge of the department for Deformities would call the especial attention of the Board of Managers to the unusually excellent results obtained in the treatment of the varied forms of Talipes, or Club-Foot, which have been under our care.

During the year we have treated in the wards of the Hospital the most aggravated forms of distorted feet, and the results in these cases, have been eminently satisfactory.

THOMAS G. MORTON, M.D.

H. EARNEST GOODMAN, M.D.

Attending Surgeons.

Report of the Attending Physicians.

The following cases of Nervous Diseases were treated in the Hospital during the year 1873:—

Infantile Palsy.....	39	Spinal Congestion.....	6
Hemiplegia.....	17	Spinal Irritation.....	1
Paraplegia.....	5	Cerebral Anæmia.....	4
Neuralgias.....	17	Palsies from local or peripheral	
Neuritis.....	1	causes.....	22
Tic Douleureux.....	2	Lead Palsy.....	1
Facial Tic.....	2	Progressive Muscular Atrophy...	2
Torticollis.....	1	Contracture.....	2
Epilepsy.....	31	Chorea.....	29
Vertigo.....	2	Paralysis of Auditory Nerve.....	9
General Nervousness.....	15	Atrophy of Optic Nerve.....	2
Hypochondriasis.....	1	Cerebral Tumor.....	2
Hysteria.....	7	Dumbness.....	2
Spinal Sclerosis (ant. col's).....	1	Insanity.....	2
“ (post “).....	5	Insomnia.....	3
Paralysis Agitans.....	6	Not classified.....	13
Myelitis.....	3		
Spinal Meningitis.....	1	Total,	256

Of these cases Philadelphia County furnished 195. Delaware, 3. Chester, 3. Bucks, 1. Centre, 1. Schuylkill, 3. Elk, 2. Dauphin, 1. York, 1. Venango, 1. Beaver, 1. Northumberland, 1. Columbia, 1. Lancaster, 2. Luzerne, 1. Wyoming, 1. Tioga, 1. Berks, 1. From the State of New Jersey there were 23 patients.—Delaware, 3. Maryland, 2. Ohio, 2. New York, 1. Virginia, 1. Indiana, 1. Wisconsin, 1. California, 1—and from the Island of Barbadoes, 1.

The physicians in charge of the Infirmary for Diseases of the Nervous System, beg leave to report to the Managers their satisfaction in regard to the results of treatment during the past year. The cha-

racter of the cases which now seek their care, has somewhat changed, so that they are called upon to prescribe for a far greater number of grave examples of palsy and serious diseases than formerly. On this account much greater space is required to treat successfully the same number of cases as heretofore ; and we earnestly hope that the friends of humanity throughout the state, will second the persistent efforts of your Board and the medical staff, to secure the funds necessary for the enlargement now so much wanted.

The arduous daily electrical service which involves so much patient labor, has been most satisfactorily conducted. No care has been spared to keep up the medical records of cases which are becoming daily more valuable, and have already afforded material for clinical researches by members of the staff.

Respectfully submitted,

S. WEIR MITCHELL, M.D.

WHARTON SINKLER, M.D.

Attending Physicians.

TREASURER'S REPORT FOR 1873.

DR.

To Balance from 1872,	\$862 15

* Deceased.

To those who may feel disposed to contribute by WILL to the benevolent objects of this Hospital, the following are submitted as forms.

Form of a Bequest of Personal Property.

I give and bequeath unto the PHILADELPHIA ORTHOPÆDIC HOSPITAL AND INFIRMARY FOR NERVOUS DISEASES, the sum of.....Dollars.

Form of a Devise of Real Estate.

I give and devise unto the PHILADELPHIA ORTHOPÆDIC HOSPITAL, AND INFIRMARY FOR NERVOUS DISEASES, its successors and assigns forever, all that certain (here describe the property.)

*Extract from the amended By-Laws of the Hospital,
adopted April 16, 1873.*

ARTICLE II. Sec. IV.

A contribution of four thousand dollars will endow a perpetual free bed, always bearing the name of the donor, which can be kept continually occupied by a poor patient susceptible of cure or relief.

A contribution of fifteen hundred dollars will endow a free bed during the life of the donor with like privilege.

A single subscription of thirty dollars constitutes a life contributor, and a subscription of five dollars a contributor for one year.

Subscriptions or donations will be received by the Treasurer, JOSEPH C. TURNPENNY, 813 Spruce Street—by any member of the Board of Managers, Medical Staff, or Women's Visiting Committee.
